

Massive traffic goes through your website, with Gamestab every user is a returning user.

Gamestab is a branded Chrome App tailor made to your needs. Increase retention, send notifications, analyze your traffic and more.

## How it works?

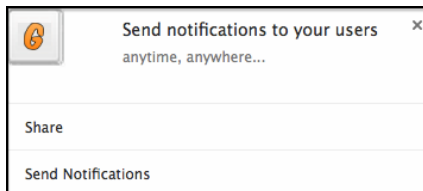

### Retention

Offer users your branded Gamestab to have them keep coming back

### Engagement

send notifications & distribute your content to get traffic back to your website

### Analytics

Track stats & performance with the Gamestab dashboard

Case study shows Gamestab increases website traffic by 15-20%

For your users:

- Gamified and creative browsing experience
- Content and other goodies from your portal directly to the user's new tab page
- Integrated App Store full of free games
- Fun and safe app hosted on the Chrome Web Store
- Fully customizable to match the user's style and need

For you:

- Send notifications to bring users back to your site
- Retention - With Gamestab every user is a returning user
- Measure performance & learn more about your users
- Position yourself in user's top-of-mind - your creatives, your games, every time.
- Content distribution - your games are just a click away
- App distribution - use our platform to promote the app
- Quick and easy integration - no programming needed

Best of all - Gamestab is now offered 100% free ! Contact us to be a Gamestab partner today!
